

You're Not Alone — Support for Unit Managers

Align with your organization's new SPHM Policy

Implement solutions that lead to an effective and sustainable Safe Patient Handling & Mobility (SPHM) program.

The future of improved patient handling belongs to unit managers dedicated to educating their staff and embracing new knowledge and techniques.

Hill-Rom supports continuing professional education to advance awareness and skills, and to change behaviors of health care providers regarding the importance of safe patient handling & mobility.

Our support continues as a partner of Greater New York Hospital Association (GNYHA), offering customizable tools, industry-standard resources, and educational materials to help you at every stage of implementation.

Contact your local Hill-Rom representative to support your unit-based, SPHM operations.

Act Requirements	How Hill-Rom can help.
Training and Education	To support transferring knowledge to bedside practice, we deliver resources for education and training, including: <ul style="list-style-type: none"> • Clinical Solutions Course & SPHM Coordinator Training • Online eLearning Courses* • In-Service & Application Videos*
Process Implementation	We offer a resource of tools designed to help you readily implement your SPHM program through the online toolkit segment of our Safe Transfers and Movement™ Program.
Performance & Metrics Review	Track success of your new programs and products by measuring clinical and financial outcomes through Hill-Rom's Impact Tracker® Quality Improvement Program.

*Available on www.hill-rom.com and through HealthStream.

Start at the Unit Level

Selecting equipment for your SPHM program is no easy task. Allow us to help you get started. Select from the list of lifts and slings below to help your unit conduct in bed, up from bed, and out of bed activities, including repositioning, transfers, standing assessments, ambulation, limb holding, and more.
