

Preparing for the New York State Safe Patient Handling Act

(Sections 20 & 21, Part A, S6914/A9205)

Get Started Now

If you have a committee, a solid policy, and practices already in place to support Safe Patient Handling & Mobility (SPHM), you're in a good position to stay compliant. If not, there's plenty of time to rectify the situation. **Hill-Rom can help.**

Please Note: Your policy on Safe Patient Handling & Mobility (SPHM) must be established by January 1, 2017.

Act Requirements	How Hill-Rom can help.
Create a facility-based SPHM Committee.	<p>We offer a Program Development Workshop with an objective of working with your key stakeholders to define and create a SPHM program customized to your organization's goals and objectives. Led by one of Hill-Rom's Directors of SPHM Programs and Services, your team will be guided through:</p> <ul style="list-style-type: none"> • Creating a foundation to develop & sustain practice change. • Developing customized policy & procedures for implementation. • Enhancing operational processes to support your program. • Establishing education schedules.
Establish a SPHM policy that takes into account your patient needs.	
Conduct a patient handling hazard assessment.	
Develop a process to identify the appropriate use of the SPHM policy, based on patient needs and equipment/solutions.	
Provide initial and ongoing training and education on SPHM.	<p>To support transferring knowledge to bedside practice, we deliver resources for education and training, including:</p> <ul style="list-style-type: none"> • Clinical Solutions Course & SPHM Coordinator Training • Online eLearning Courses* • In-Service & Application Videos*
Set up and utilize an investigation process for incident review.	<p>We offer a resource of tools designed to help you readily implement your SPHM program through the online toolkit segment of our Safe Transfers and Movement™ Program.</p>
Conduct annual performance evaluations of the program with results reported to the committee.	<p>Track success of your new programs and products by measuring clinical and financial outcomes through Hill-Rom's Impact Tracker® Quality Improvement Program.</p>
Incorporating SPHM equipment when construction or remodeling is occurring.	<p>Let Hill-Rom's EDAC-certified professionals ensure that your cross-functional design team develops an intelligent patient environment. Our RoomBuilder® workshop utilizes an evidence-based design process that focuses on safety, efficiency, and budgetary concerns to optimize outcomes.</p>

GNYHA Contract Summary

Liko (GNYHA-MM-037)

Contract Category Overview

Hill-Rom is proud to announce the launch of a new agreement with GNYHA for our Liko® brand of patient lifts. For over 30 years, Liko® lifts have been designed to help caregivers safely mobilize and transfer patients. With a wide range of lifts, slings and accessories, Liko® products mitigate the risk of injury caused by manually transferring and moving patients.

Safe Transfers and Movement™ Program

With our Safe Transfers and Movement™ Program (STAMP), you have access to resources that help you achieve a safe lifting environment. Whether you are just getting started or already have a practice in place, Hill-Rom has the tools you need to establish and evaluate your safe patient handling protocol. Our collection of customizable tools, industry-standard resources, and educational materials will help you at every stage of your journey.
